

## About Us

Nexxis is an Australian owned equipment rental, sales and leasing company specializing in state-of-the-art Remote Visual Inspection (RVI) and Non-Destructive Testing (NDT) equipment.

From **Oil and Gas, Mining, Utilities**, to **Defence, Aviation** and **Manufacturing**, Nexxis have a team of dedicated **Technical Sales** and **Operations Specialists** who will find the best and most cost-effective fit to suit your needs.

## Rent, Lease or Buy?

At Nexxis, we understand the need to get the maximum cost benefits from your capital. We work hard to find a solution that best suits the needs of your business or project, including offering our innovative leasing options and **Frame Agreements**, delivering the best mid and long-term savings.

Whether you have a short-term equipment requirement or a longer-term project that needs continuous support, we're here to give you the most cost-efficient **Rent, Lease or Buy** solution.

## Downtime Mitigation

Down-time is a dirty word in any industry, especially when every hour of lost operations equates to loss in production and profitability. When you **Rent, Lease or Buy** from Nexxis, we offer a variety of warranty solutions to ensure that if any of your equipment is damaged on the job or faulty for any other reason, a replacement will be provided immediately, and repairs managed by us.

## Total Dedication

With a team of **Technical Sales** and **Operations Specialists** on-call 24/7, we stand firmly behind our products and the specialist service we provide as part of each and every **Rental, Lease or Sale**.

Our team have the most up-to-date training and are technically proficient in all of the equipment we provide. If you have a problem, we have a solution. It's what we call **Total Dedication**.

### NEXP 2330

#### Rugged, Versatile & Portable

Equipped with 12 x LED lights and a 120° wide-angle, sapphire lens, the NEXP 2330 provides accurate, easy-to-view images and real-time HD video.

Perfect for wall and pipe inspections, the NEXP 2330 is manufactured using high-quality, durable materials to withstand the rigors of tough working conditions. The optional 512Hz transmitter delivers accurate and precise information, and the 9" TFT Colour monitor with OSD display provides crisp images to ensure precise inspections.

Equipped with a rugged, water-proof, portable plastic case, the kit is ideal for locating corrosion and cracks in pipelines, sewers, tanks and air-ducts and is widely used in the Municipal, Search & Rescue, Electrical, and Telecommunications industries.

#### SAPPHIRE GLASS 120° WIDE-ANGLE LENS
